The Three Renos and Charles An derson Hung by the Regulators.

Affair. CINCINNATI, O., December 12.

The following particulars of the hanging of the Renos have been received by the Cincinnati Times: the Cincinnati Times:

NEW ALBANY, IND., December 12.—Between three and four o'clock this morning from sixty to seventy Seymour Regulators, masked and heavily armed, ar-

lators, masked and heavily armed, arrived here via the Jeffersonville Railroad. Immediately upon their arrival they proceeded by a direct route to the county jail, placing guards at every street and alley to guard against a surprise. Arriving at the jail, one of the guards stationed outside the jail, took fright and attempted to raise an alarm, but was quickly taken charge of and placed under guard. They then entered the office of the jail, and after twelve or fitteen of them had entered, "Sheriff Fullalove, awakened by the disturbance, came to the door, and they demanded the keys he attempted to get away by dodging down a cellar way, coming out on the outside of the building, but here he was commanded to surrender, and by some means was shot through the arm. They had now complete possession of the jail, had now complete possession of the jail, and found the keys in the sheriff's bed-room, when they immediately proceeded to the cells, and forced one of the guards to unlock them. They then took Frank Reno, Simeon Reno, William Reno and Charles Anderson, the express robbers, and hung them to the iron railing or posts supporting the walk around the cells. The victims were placed on chairs, the ropes adjusted, and the chairs kicked under them. Frank and Simeor

In accordance with your request, I give you, and through you, the public, the following facts in regard to the affliction of my nicee, annie Lewis, aged 16 years, of tape worm: About twelve years ago the first symptoms of the presence in her system of the monster was discovered. She was always a small, pale and enaciated child, having very little to say. Every remedy the family could hear of was tried effectually, but failed to remove only portions of the worm. Three years she was under the treatment of eminent physicians of Louisville, who used every known remedy, and tried all sorts of experiments to dislodge the eneux, but without avail. A remedy prepared by the celebrated Dr. Jayne, of Philadelphia, was also tried, but it, too, failed to effect a cure. The effect of the worm upon her health caused her to become partially blind, and to suffer otherwise to a considerable extent for several years. All hopes of her recovery were given up until I heard of your remedy. It performed an effectual cure in a short time, removing the entire worm, twenty-two feet five inches long. Since that time the patient has gained flesh very fast, now weighing eighty-four pounds against sixty-four previous to the removed of the monster. She is now in apparent good health, and is cheerful and lively, having fully recovered her sight. I can cheerfully recommend your remedy as safe and sure in such cases. Yours, respectfully. Seven years ago I discovered that I was afflicted with one of these monsters. At first it did not interfere with my health or business, but after about a year I became very sick at intervals. My health began to fail me, and I became very thin and emaciated. I commenced doctoring, and to be brief, I have paid out large sums of money to a great many physicians. I lived at Uniontown, Kentueky, when I commenced with the physicians, every one of whom I tried in that and neighboring towns and cities, without any effect. I was told by many of them that the worm would kill me; that there was no hope, as it was virtually a question of time in my case for my death to ensue. I began to think they were right, and concluded to enlist in the service, thinking it just as well to be shot with a bullet as to die of a worm. I also had a hepe that while in the service I might find some Doctor who would do some good. In this I was mistaken, as I tried every one I came in contact with during three years service. I took every kind of medicine that could be thought of, all of which failed to remove the terrible enemy gnawing at my vi-Persons from a distance can order a Machine with perfect confidence of being able to operate it in a few hours successfully, by the aid of the printed instructions that accompany car't Machine. At the time I came I must confess that I thought the job a hopeless one, but I am happy to say that I now rejoice that I came. The morster was entirely removed from my system, after being under your treatment a few days. The worm was sixty-six feet and five inches long, and I am satisfied that I am perfectly well. I have gained my strength very fast during the past two months. I most heartily recommend your remedy to all those similarly afflicted.

INDIANAPOLIS, December 9, 1868. The New Albany Tragedy.

A terrible tragedy was enacted at New Albany on Saturday morning. The three RENOS and CHARLES ANDERSON, charged with the Express robbery on the Jeffersonville Railroad, near Seymour, were taken out of the Floyd county jail by a vigilance committee and hanged, the murderers not leaving their victims until they were satisfied that life was extinct. It is stated that the parties guilty of the foul deed, numbering about twenty-five, were thoroughly disguised. They went to New Albany and left on a special railroad train, and in every respect were prepared for the work they accomplished.

There is no apology for this cold blooded murder, for such it was. The Renos and Anderson may have been guilty of all that was charged against them, but their guilt can not furnish even the shadow of an excuse for the terrible tragedy that was enacted. The act was not only criminal, but cowardly in the extreme. The victims were prisoners and helpless. The murderers were prepared for the job they undertook. In the heat of passion or under some strong provocation, killing may have some justification or apology, but in this case all was pre-arranged, as the tele-graph states, with cool determination. This vigilance committee, whoever they may be, took the law into their own hands and voluntarily became the accusers, the judges, and the executioners.

Anderson, it is said, had nothing to do with the crime that was charged against the RENOS, but he suffered the same fate.

The RENOS may have been outlaws and deserved the most extreme punishment that could be inflicted for the crimes alleged against them, but their guilt will not justify the men who deliberately, and without authority, took their lives. The disgraceful act is charged upon the citizens of Jackson County, We can not believe that peaceful and law abiding citzens could be guilty of such a crime-could become wilful murderers, as the men were who hung the RENOS and Anderson. There is a responsibility for the act. No doubt the victims were thieves, but all engaged in the hanging, or knowingly aided in any way, are, in the sight of the law and of God, murderers. Although the guilty parties may be able to hide their crime from the knowledge of the world. they can not escape the off-condemnation that will follow them. "Thou shalt not kill" says the decalogue, and in the murderers' ears will ever ring God's condemnation, "Thou shalt not kill.

On Saturday, September 12. I was at the toll house. In the afternoon, a buggy drove up with two gentlemen in it. One got out and came into the house, lit his pipe, went to the pump and got a drink, and then went out to the buggy. It was doing my dinner two o'clock. I was doing my dinner twork. We had eaten dinner some time before. I saw his face; he stopped and talked to me while smoking. They were going East. I noticed the horse and buggy. It was a sorrel horse, with blazed face; short tail, with white hind feet, with spots on his side. The buggy was a black top on, with red and black wheels. It went back again between five and six o'clock. I think it was the same buggy. I saw the man who lit his pipe in the buggy. Have seen him at the jail since. SMITH'S TONIC SYRUP.

FOR THE CURE OF

Ague and Fever.

OR CHILLS AND FEVER.

This proprietor of this celebrated medicine jostly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartje medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S WEGETABLE FAMILY PILLS will be sufficient.

BULL'S

WORM DESTROYER.

To my United States and World-wide Renders.

I have received many testimonials from professional and medical men, as my almanace and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in feorgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimeny deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, WALKER COUNTY, GA., June 29 1866.

REMEDIES

GREAT

Dr. John Bull-Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished-for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine directly from you. If I can got it upon easy terms, I shall use a great deal of it. I am aware that the use, of such articles is contrary to the teachings and practice of a great majority of the regular line of M. D. s, but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my peart, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effect first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of diseases to which human flesh is heir. Please reply soon, and inform me of your best terms.

I am, sir, most respectfully,

P. S. The following was written April 20 by Mrs. Jennie Johnson, mother of Captain Johnson:

Ds. John Bull.—Dear Sir: My husband. Dr. C. S. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C. P. Johnson to my care. At thirteen years of age he had a chronic diarrhea and scrotula, for which I gave him your Sarsaparilla. It cures Him. I have for ten years recommended it to many in New York, Ohio, and Iowa, for scrotula, fever sores, and general debility. Perfect success has attended it. The cures effected in some cases of scrotula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. FRANKLIN LIFE INSURANCE COMPANY.

The Pioneer Indiana Company All Kinds of Policies Issued. E. P. HOWE, Secretary, B. F. WITE, Gen'l Supervising Agent.

Dr. John Brill—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commonced on the Bitters, and soon found his general health improved.

Dr. Giet who has been in bad health, tried them, and he also improved.

Dr. Coffee, who has been in bad health for several years—stomach and liver affected—he improved very much by the use of your bitters. In deed the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall—especially rour Cedron Bitters and Sarsaparilla. Shin me via Memphis, care of Riekett & Neely.

Respectfully.

C. E. WALKER.

The Hog Market.

The weather to-day has been very cold, and operations in hogs have been somewhat restricted in consequence. The market is very firm, and prices remain about as reported yesterday. There is still an active demand, notwithstanding the season is about closing. All of our estheir pens, leaving none to be carried over until Monday, except what few may arrive to-night and Sunday. The offerings have been limited,

and receipts small.

Messrs. J. C. Ferguson & Co. killed 800 to-day. and cut those slaughtered yesterday. Their pens are entirely cleared out, but with the arrivals anticipated to-night and to-morrow they will have a 'ull day's killing on Monday. They report offerings light and receipts small. Prices

day, leaving none in pens. They would have cut those killed on Friday, but they were unable to control the weather, and 300 head froze hard. They report receipts light, offerings small, and the market very firm. They will be at work on Monday, with their pens well supplied.

Messrs. Nofsinger, Kingan & Co. killed something upward of a thousand to-day, and night found them with empty pens, which they expect, by Monday, to have again well supplied. This firm is still in the market, buying, and do not know yet when they will retire-not as long,

We give the following as the market quotations to-day: Hogs weighing from 210 to 225, \$7 35; 240 \$7 45. 250 and upward, \$7 50; 280, \$7 60: and 300, \$7 75. Net hogs are quoted at from \$3 to 9 60, as to quality. Wagon hogs are quoted at \$8 25, \$8 50, \$8 75, and \$8 90. We are apprised of no sales of hog product, except in a small way, although bids are plenty. We take the following from our telegraphic dis-

New York Dry Goods Market.

New York, December 12.
In cotton print cloth the market is excited and prices have rapidly advanced; sales of 64 Peck's square, 7 yards to the pound, at 9@9\(\)c; even 9\(\)c is now asked for future delivery in February and March. All the leading print men are into this speculation. However, we find that most of them have withdrawn their prints from the market to-day for higher prises. Dennett advanced his goods \(\)c corrected for prices in the least, if we except Richmond's prints, which were reduced in price to 120 by Claffin \(\)c. (200.) last evening. For bleashed goods there has been increased inquiry, and all medium grades of shirtings, like Hope, Lonesdale etc., have risen 4 per cent., or \(\)c per yard. Fine unbleached musling, like Fepperel, Laconis B and Atlantic L goods, which have been selling at York shilling, are getting very scarce, and must reach 13c at once. Other classes of goods are devoid of animation, and prices are unchanged.

br. wm. rhomson has made the treatment of Private Diseases a specialty since the year 1851—three years in the city of Buffalo, New York, eight years in Chicago, Illinois, and two years in Peoria, Illinois. During eight years practice in Chicago, Illinois, he cured over thirteen thousand cases.

Dr. Wm. Thomson, in his practice for Scrofula, Rheumatic and general diseases of the blood, uses a Fumigating Vapor Eath of the most ingenious kind, in conjunction with internal treatmer.

nious kind, in conjunction with internal treataminate Emissions, the consequence of discussions. This solitary vice, or deprayed sexand indugence, is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, and noises like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, difficence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, night sweats, fetud breath, coughs, consumption, monomania, and frequently insanity.

The afflicted, on the first appearance of any of the above symptoms, should immediately apply to Dr. Wm. Thomson for relief.

**### STOME OF THE OF THE

ANHOOD."—Another New Medical Pannish Let from the Pen of Dr. Curtis.—The Medical Times says of this work: "This valuable treatise on the cause and cure of premature decline shows how health is impaired through servet abuses of youth and manhood, and how easily regained. It gives a clear synopsis of the impediments to marriage, the cause and effects of nervous debility, and the remedies therefor." A pocket edition of the above will be forwarded on receipt of 25 cents, by addressing Doctor Curtis, No. 58 North Charles street, Baltimore, Md.
